In Kingman, Arizona the radio selection is very minimal. A local politician owns KGMN and he never improves his radio station. When I moved to Kingman one of the local stations broadcast the Dodgers and Padres baseball games, Arizona Cardinals football games and Suns basketball games. I have not had the pleasure of listening to these events for years as the local station no longer carries the games. I do not have Arizona Diamondbacks baseball games to listen to on the radio. In addition, radio station KJUL out of Las Vegas, NV provides excellent programming but the reception in Kingman is poor. I listen to the radio more often now that I have XM radio in my home. Do not stop XM radio from providing the services the listeners enjoy. As a consumer, I am paying for this service and think it should remain untouched. The government has more serious issues to deal with than trying to infringe on XM radio.
